

BKM Mannesmann Uk ltd is pleased to announce their South / South West Distributor and installation team, BKM Damp Treatment-South. Territory Manager, Christian Franceschi is heading up the business and his installation team.

Christian adds “given the fact our German Holding Company has just been awarded the role of restoring, preserving and applying damp treatment for all the German Federal Authorities owned buildings & Monuments, is great news for us.

We now have the perfect product offering, a guaranteed 25-year protection for buildings and a range of unbeatable products. We often get asked what to recommend as a breathable protection against rain, sea and flood water and now with our own range of breathable plaster products, it means we can control any task thrown at us”

John Malins, Country Manager for BKM Mannesmann Uk ltd, based in Leicestershire says “the synergies are perfect and we are confident Christian will develop the opportunities in his area”

Christian’s contact details are:

Southern office: 01962 940005

Mobile: 07920 748 026
